Service Description

ISPBX is a cloud based telephone system utilising a feature rich hosted PABX hosted in diverse Data Centres accessing our IP Telephony.

The service is an unbundled offer; each extension licence consists of the following;

- PABX functionality including an extension number, extension to mobile routing and a voice mail box
- One SIP Trunk allowing 2 simultaneous phone calls
- On-Line User Portal to manage calls at the extension level

Each Primary In-Dial number consists of the following;

- Hunt Group to manage call flow with Out-of-Service options
- Call Time Profile
- Master Auto-Attendant call routing
- Working Hours Voicemail with Auto-Attendant based Greeting
- After Hours Voicemail with Auto-Attendant based Greeting

An On-Line Management Portal is available for extension management and configuration changes.

Additional DID numbers are available at an additional charge.

This offer does not include handsets, a data service or calls made to or from the service. Handsets, data services and IP Telephony calls are available at additional cost.

You are liable for any configuration changes made by you or any person in your control.

Term of the Contract

The service is provided on 12 month term.

Information about Provisioning

Under the proviso that an existing internet service is available with an upstream speed sufficient to consistently support the number of simultaneous conversations required, we endeavour to provision the service in 2-3 working days. We will provide you with authentication details after the installation of the service.

Service Availability

Talking Business commits to IP Telephony availability of 99.95%. Should availability fall below the 99.95% in any month the customer may request credit for any "Network Unavailability" in writing.

Network Unavailability consists of the number of minutes that the Talking Business Network was not available to Customer.

Outages will be counted as Network Unavailability only if the Customer opens a trouble ticket with Talking Business customer support and submits a Credit Request communication within fourteen (14) days of the outage.

Network Unavailability will not include the failure of the underlying internet service, scheduled maintenance, or any unavailability resulting from (a) any telephone company circuits, (b) Customer's applications, equipment, or facilities, (c) acts or omissions of Customer, or any use or user of the service authorised by Customer or (d) reasons of Force Majeure.

Service Availability Compensation

For each cumulative hour of Network Unavailability (over 0.05% in any month Non-cumulative over > 1 month), upon Talking Business's receipt of a Credit Request communication, the customer's account shall be credited with one day of call charges, based on the average daily call spend from the previous month, up to a maximum of five (5) days credit in any given month for the service with respect to which a Service Availability commitment has not been met.
